**Step 1**: Please upload a csv file.

coordinates.csv *0.22MB*

Step 2: Please select the area by drawing a rectangle from the map toolbar.

Step 3: Please fill the required details. Note that computation time increases exponentially with the grid size and max p-value.

* Task Name :

* Grid Length (?) :   10

* Out of bounds points (?) :   exclude

* Cost type (?) :   distance

* Min p-value :   1

* Max p-value (?) :   2
